

Rain Garden Rescue Blitz—Volunteers Needed

This huge rain garden at Monterey Middle School needs TLC—a few work sessions by community volunteers and students can quickly restore it.

Can you help at any of the sessions?

Times are Noon to 4:00 pm, but even a couple hours is welcome:

- Sunday, June 4
- Monday, June 5
- Friday, June 16
- Saturday, June 24

RSVP to Gerald at geraldh@pacificcoast.net

Much depends on the Monterey rain garden thriving and looking good. School District 61 cooperated with Peninsula Streams (PSS) and Friends of Bowker Creek (FoBC) in building and planting it last year—the first launch of our rain garden building programs. So, this project needs to succeed. PSS and FoBC hope to build many more, in cooperation with SD61, other institutions and businesses. We need a good track record with our first few projects. Starting out, we are still learning and making mistakes. Help get the Monterey rain garden project back on track.
